The Foxgard T01 Smart Door Lock is designed to be easy to install and use, with fingerorint door knobs and a smooth rounded handle that adds a touch of elegance to any door. Its advanced fingerprint recognition technology ensures that only authorized persons can gain access to your property, while its Android controller and mechanical knob provide backup access in case of emergency.

The smart door lock can be controlled remotely via the Foxgard app, which allows you to monitor access, set up access schedules, and receive notifications whenever someone enters or exits your property. This makes it ideal for homeowners, property managers, and Airbnb hosts who need to manage multiple properties at once.

The Foxgard T01 Smart Door Lock is made from high-quality zinc alloy, which ensures its durability and longevity. It is also designed to be weather-resistant and tamper-proof, making it suitable for use in a wide range of environments and scenarios.

Whether you are looking for a reliable security solution for your home, hotel, office, or Airbnb property, the Foxgard T01 Smart Door Lock is the perfect choice. Its advanced features, user-friendly interface, and elegant design make it one of the best fingerprint door lock options on the market today.
