### Product Description

#### Product Description:

The Smart Door Lock comes with three different controller types: Hand Control, Mechanical Knob, and Android. This allows you to choose the controller that best suits your needs and preferences. The Hand Control controller type allows you to unlock the door using your fingerprint, while the Mechanical Knob controller type requires you to manually turn the knob to unlock the door. If you prefer using your

smartphone, the Android controller type allows you to unlock the door using your mobile device.

In addition to its various controller types, the Smart Door Lock also comes with a number of included components. The main parts include the Back Handle, Front Single Latch, Strike Plate, 2 Mechanical Keys, Screws, and Screwdriver. These components are easy to install and provide you with everything you need to get started right away.

The fingerprint door lock feature is one of the most innovative aspects of this product. With this feature, you can easily unlock your door using your fingerprint, which eliminates the need for traditional keys. This feature is not only convenient, but it also provides an added layer of security to your home or office.

Another great feature of the Smart Door Lock is its smart capabilities. You can connect it to your home automation system, which allows you to control the lock using your smartphone or other compatible devices. This means you can easily lock and unlock your door from anywhere, at any time.

In conclusion, the Smart Door Lock is a must-have product for anyone looking to upgrade their home or office security. Its fingerprint door lock feature, smart capabilities, and sleek design make it the perfect fit for any modern home or office. If you're looking for a reliable and secure way to keep your property safe, the Smart Door Lock is the way to go.

## Applications:

Equipped with fingerprint door knobs and remote app control, the Foxgard T01 Smart Door Lock provides a secure and convenient way to access your property. Whether you're at home, at work or on vacation, you can remotely control the lock via the app to allow access to trusted individuals.

The Foxgard T01 Smart Door Lock is made of durable zinc alloy and has a polished finish, which not only adds to its aesthetic appeal but also ensures longevity.

Recommended for use in various settings such as bedrooms, back doors, homes, houses, Airbnbs, hotels, apartments, offices, rentals, garages, and more.

As a hotel lock, the Foxgard T01 Smart Door Lock can be installed in hotel rooms to provide secure and convenient access for guests.

The fingerprint door knobs ensure that only those with authorized access can enter the room, providing peace of mind to both the hotel staff and the guests.

In summary, the Foxgard T01 Smart Door Lock is a reliable and convenient solution for anyone looking for a secure and easy way to access their property. Its fingerprint door knobs and remote app control make it a must-have for homeowners, renters, hotel managers, and anyone looking for a smart door lock solution.
