One of the key features of this smart door lock is its fingerprint recognition system. This ensures that only authorized individuals are granted access to the locked area. The fingerprint scanner is highly accurate and takes only a few seconds to unlock the door. This feature is particularly useful in an office or hotel setting where security is a top priority.

In addition to the fingerprint scanner, the Foxgard T01 Smart Door Lock can also be unlocked with a physical key. This provides an alternative option for those who prefer a more traditional method of unlocking doors.

The Foxgard T01 Smart Door Lock is lightweight, weighing only 1.1kg. This makes it easy to install and use. Its polished finish adds a touch of sophistication to any door it is attached to.

Overall, the Foxgard T01 Smart Door Lock is a versatile and reliable product that is perfect for anyone looking for a smart door lock or hotel lock. Its fingerprint recognition system, smooth rounded handle, and polished finish make it a popular choice for various applications.
